Promised "Bargains" in glasses do not mislead thinking people.

The man who offers you glasses at ridiculously low prices is either a fool or a fakir—if the glasses are worth \$5.00 he can get \$5.00 for them; if they are worth 39c or a dollar, you do not want them at any price.

Whether you pay us \$2, \$3, or \$5, or more, for a pair of glasses you will get full value. That's enough for any honest man to promise.

You will not be disappointed in him not being here. He will sure be here, and you will surely come to hear him. He is one of the best speakers in the state, and is an exceptionally good man—beis of the people and for the people, and is looking to the people for support. After his election to the U. S.
